Solar Power Systems for Home or Office from 1KW to 5KW

Special Offer : FREE Installation

Reduce your EB Bill by up to 90% while running all loads including Air Cons.

SPV Systems available from 1KW to 100KW generating 5 units a day to 500 units a day. **Off-Grid, Grid-Tied and Hybrid fully automatic systems available.**

DEMO available. Visit our web site www.nagimpex.com for our previous installations in Chennai or call **98408 67653** for more details.

Features & Benefits :

Grid-Tied Solar Power System : These are the most cost effective systems offering you **maximum savings with minimum investment** and a fast ROI. But they do not provide power during a grid outage.

Off-Grid Solar Power System : These systems come with battery bank and provides you with backup power for your critical loads when the power grid fails.

Grid-Tied solar power systems with battery backup during power cuts is also available from us. Please call us for more details.

How much can you save with a Solar Power System?

Solar Power System of any size will definitely save you money.

For example : A 3KW system generates 900 units per bill (2 months).

This saves you Rs.5,400 for residential consumers and Rs.9,000 for commercial consumers. Cost of 3KW Grid-Tied system is Rs.2,70,975 net.
